

Builders Now Build Homes That Provides Complete Safety and Protection for the Family; Homes That Are Waterproof, Fireproof, Hurricane and Termite-Proof

Homes built with Aeonian bricks cannot be damaged by hurricane or tornado winds, (up to 240 mph) will not sustain water damage from flood waters, is impervious to termites, and will not support the growth of mold, mildew and is soundproof, and costs the same as the average concrete or wood frame house.

Summerville, SC (PRWEB) June 4, 2009 -- Aeonian Brick Homes (<http://Aeonianbricks.com>) is announcing today that contractors and home builders across the country now have the opportunity to be first in line to build homes in their area using a revolutionary new, green brick product. The first ever interlocking brick that's waterproof, and can withstand winds up to 240 mph, and will not promote the growth of mold and mildew.

This interlocking designed brick is part of a complete home building system that is poised to capture a huge percentage of the new home building market, including the green market.

Builders that are looking to position themselves while the housing market regains strength will be first in line to realize huge profits and growth by using this green building product. The company's waterproof, interlocking brick will provide a green residential builder with 13.9+ LEED points toward certification.

Don Blalock, Founder of Aeonian Brick Homes, LLC, and a contractor for 35 years, has been involved in the research and development of this new brick for the past six years. The bricks will be sold to homebuilders and contractors throughout the United States as part of a complete green home building system, which will include a new roofing system, with the same advantages as the walls.

Brick production began on May 14, 2009 in the company's Summerville, SC factory. The company has purchased a lot in The Ponds, a community located in historical Summerville, to build the first home using this revolutionary home building system.

The company's business model consists of building a national network of home builders that will be trained on how to use this system. For builders that have an eye toward finding a green edge as the economy realigns itself will find this product to be the greenest building material available.

All builders that use Aeonian's home building system will be provided leads of interested buyers in their area. These are buyers that have expressed a direct interest in having their home built using Aeonian bricks.

For additional information or to follow the construction progress via email updates with pictures and videos, contact Tom Mitchell, VP of Marketing or visit <http://Aeonianbricks.com>.

About Aeonian Brick Homes, LLC

Aeonian Brick Homes is a South Carolina based LLC brick manufacturing company that has had its bricks tested and certified for home construction in 34 states by Florida based Davis and Cleaton Engineering.
